

Community Led Planning in the Wootton Bassett and Cricklade Community Area

In the Wootton Bassett and Cricklade Community Area, community planning is conducted at parish or town level by community led planning (CLP) groups. These currently include groups representing over 90% of the community area population in the following separate towns and parishes: Broad Town; Cricklade; Lyneham and Bradenstoke; Lydiard Millicent; Purton; and Wootton Bassett, and each of the CLPs has its own steering group comprising representatives from a wide range of community groups.

All of the individual community-led groups are jointly supported by both the Area Board and Community First. The Area Board provides the CLPs with grant support while Community First provides guidance and technical support.

Parish or town level plans developed by the CLP's will help inform a replacement Community Area Plan for 2015.'

Please note the link on the left hand side of the web page in the green section entitled 'Community Area Partnerships' does not relate to the Wootton Bassett and Cricklade Community Area'.
