

### Work is under way

The work to transform Calne Leisure Centre is well under way.

The £3.4 million investment will improve the facilities and ensure long-term sustainability. The refurbishment will deliver a new, bigger gym and a wet changing village. The centre will also be re-decorated throughout.

The contractor, MD Group, started on site at the beginning of September and has been working with centre staff, to make changes to the building to keep the centre open to customers.

A big thank you to everyone for your patience and understanding during this settling in period.

### Construction

Work is being undertaken in phases, which enables us to keep the building operational. While there will be some disruption from time to time, we are working closely with the contractor to minimise impact on services.

This month the contractor is busy stripping out and demolishing internal walls to create the new spaces. This includes the new gym, dry changing rooms and front entrance lobby.

While the gym extension is taking place, a temporary gym has been provided in the sports hall. The remainder of the hall is available for bookings.

The construction period is expected to be just over 12 months.

### Discounts

While the centre is being refurbished you can enjoy a 25% discount on all bookings, classes and memberships.

*Temporary gym*

### Access

Access to the centre is now at the rear of the building. There are signs marking the route.

There is an accessible entrance to poolside at the front of the building for those unable to manage steps or the walk to the temporary reception. To gain access, please call the centre number or use the intercom system. The intercom is near the old entrance, to the right-hand side under the canopy. A member of staff will come and meet you to escort you through the building.

### Get in touch

If you have any queries, you can contact the Campus team by email:
