

# PERFORMING ARTS LIBRARY

## Policy Statement

---

1. The Library stocks a broad selection of performance sets of music and drama material and will make these available for loan to Wiltshire groups and schools, on a charged basis (service charges are reviewed annually). In addition, the Library provides a direct service to groups in bordering authorities.
2. It will also undertake to provide a wide range of single copies of sheet music and miniature scores, which will be available to members of the public to borrow free of charge.
3. The selection of material available will be reviewed constantly, stock being added and withdrawn within budget limitations.
4. Where appropriate, the Library will undertake to provide groups and schools with background material such as sound effects on CD, and a range of DVDs.
5. Subject to availability the Library will, where appropriate, undertake to obtain material not in stock either by purchase or by loan from other authorities.
6. Material will be loaned for the period required to rehearse and complete a production or for a stated period of study. Material from outside Wiltshire will be subject to the recall date of the lending library.
