Subject: Re: Letter from the Inspector

Dear Mr Cunningham.

Thank you for your helpful response. I am content to incorporate your suggestions which provide a clearer statement of the Council's position. The wording I used for para 18b was a direct copy of that provided by the Council in a previous modification for para 5.2 (now MM9). However, I appreciate the situation to which the Council was responding at Rowden Park is different to that at Rawlings Green so it seemed likely that you would look again at the text. Regarding para 18e, the word 'any' was included at para 11.7 of the Council's Position Statement (CTAN-12). Again, I did understand that the Council might wish to amend that text prior to its incorporation in an adopted Plan. The remaining comment, regarding MM10, was the subject of an exchange with Ms Gibson, and I thought we had agreed that I would continue to use the 2015 housing land supply figure of 1,780 in the main modification, and that the Council would revise this, and make any other factual updates prior to adoption. If this is not the case perhaps you would inform my Programme Officer. Otherwise I will continue with the 2015 data.

Regards

Patrick Whitehead
Inspector
