## Introduction

The Childcare Act 2006 (Section 11) places a duty on local authorities to undertake an assessment of the Sufficiency of Childcare in their area.

Sufficiency of childcare is defined as childcare that is sufficient to meet the requirements of parents who require childcare in order to enable them to take up or remain in work or to undertake education or training which could reasonably be expected to assist them to obtain work.

For a full analysis of the sufficiency of childcare in Wiltshire, please see the Childcare Sufficiency Assessment 2011 at [www.wiltshire.gov.uk/childcare](http://www.wiltshire.gov.uk/childcare). The next full report will be published in April 2014.
