

# Apply online and **save £100\***

**Are you a planning professional and still submitting planning applications on paper?** Planning Portal users confirm they save a minimum of £100 per application when they apply online.

You and up to 3 of your colleagues are invited to learn about the online benefits at one of the Planning Portal's FREE workshops running throughout January and February. Each event will help your organisation gain the maximum commercial benefit from using the Portal by submitting planning applications online, saving you time and money. **Come and find out how!**

Join other select professionals at the workshop to discuss how online planning application submission can benefit your business and answer these basic questions:

- **What are the benefits of online planning?**
- **How can the services of the Planning Portal improve my competitive edge?**
  - **How easy is it to convert to e-planning?**
  - **What support is available?**

So if you are still submitting planning applications on paper, why not bring a current application, complete with digital drawings, along with you and find out just how easy it is to apply online? We can talk you through the process and you can submit online on the day.

The Portal team will also be on hand to answer any questions, regarding other tools featured on the site.
