Britford	7:15 am	7:45 am	7:30 pm	7:00 pm
London Road	7:15 am	7:45 am	7:30 pm	7:00 pm

Why have we made these changes?

Periodically we review the performance and efficiency of the Park & Ride service to ensure that it is achieving its intended goals – those being to improve the quality of the local environment, reduce city centre congestion and support the city centre economy.

Following some extensive survey work, we found that very few people were using the first and last few bus services of the day at Wilton, Britford and London Road. Indeed, in an 8 week period only one person used the 7:00 am service from Britford to the city centre. This is clearly wasteful and not according with the goals of Park & Ride. As such, we have decided to curtail the opening hours of Park & Ride. The new times are detailed in the tables above.

The buses will continue to run at the 10 – 15 minute high frequency, that help to make Park & Ride a valued service by a growing number of users.

10 Reasons to use Park & Ride:

1. Saving on central car parking charges
2. Clean and high quality buses with air conditioning and low floor access
3. High frequency bus services
4. Safe and secure car parking
5. Improves air quality
6. Reduces congestion
7. Wide parking bays
8. Great facilities
9. No time limit to your daily stay
10. Cross-city unlimited bus journeys on the Park & Ride buses
