Dear Mr Kemp

**Re: Submission from Godshill Parish Council regarding the South Wiltshire Core Strategy Review**

Godshill Parish Council welcome and support the revised proposed Core Strategy and is prepared to support it as a sound compromise, despite the failure to lower the amount of development on the borders of the New Forest National Park in proportion with reductions over the rest of the district. We could certainly not support any increase on these figures.

We wish to support the excellent statement submitted by Downton Parish Council concerning Persimmon's objection to the lower number of dwellings allocated to Downton and reiterate our previous point that a large expansion of development there would certainly cause a considerable increase in light pollution, general disturbance and commuter traffic through the narrow lanes of the New Forest National Park, further destroying its tranquillity. (For the same reason we welcome the removal of the Netherhampton Road site from the areas to be developed and trust that there will be no attempt to reinstate it in the Strategy).

Furthermore, as a parish in the New Forest badly affected by every increase in traffic caused by developments over the border in Wiltshire, we would also like to support the comments submitted by the National Park Authority on the subject of reducing new housing and development plans proposed in the Strategy.

Yours sincerely

Laura Cowdery  
Parish Clerk, Godshill Parish Council
