Dear Mr. Kemp

~~South Hillshire Bone Strategy Examination~~

Thank you for returning my papers + your help
+ guidance re. the above

On behalf of the Association of Council Taxpayers

South Hillshire, Confessing Support for your stringent
policies for the retention + protection of green land + the

AONB

I feel sure you will agree ~~no~~ that security of these
areas + Countryside Policies already established, together
with Planning history of such areas will be taken in
account. Together with observations + concerns from
Secretary of State Planning Inspectors in key areas is vital

We must extend into these areas for housing
will be only in the cases where there are no other option

It is a general policy i.e. National Need (NEED)

We are all aware most landowners, Developers
Builders have little regard for anything but profits, So
please we beg you take great care of our "Green and
Pleasant Land" It's all we have left!

Yours sincerely,

Douglas Rowden

On behalf of the Association of Council
Tax payers, South Hillside, (membership of 447
paid-up members)

P.S The present Local Plan has been very
helpful for most, Perhaps you may introduce something
similar

- Rowden
