

1. I am sure Salisbury will lose trade because of the Council's proposals. Currently I have heard of people who have already deserted Salisbury shops on account of the severe congestion already suffered. It is not reasonable to expect people with children, who are elderly, ill, or merely have heavy shopping to do (perhaps in the market) to be compelled to use the park and ride to access Salisbury.
2. Surely it is unfair to increase parking charges in Salisbury to pay for the changes to the transport network when half of Wiltshire's parking revenue already comes from the Salisbury district.
