10.05.2010

South Wiltshire Core Strategy Examination.

Dear Mr Kemp,

Thank you for your letter dated 7th of June regarding the above, and seeking comments regarding representor reference: 2670.

As I have long since believed that one of the main purposes of the above strategy, were (a) central government politically motivated, and (b) a means by which the whole of the South and South West of England would be made to have even more houses built than the existing residents wished, I am therefore delighted that the responsibility for planning may now begin to be more democratically judged, by local residents who have already invested in their communities rather than an unelected committee. If by doing so, the price of property in the South of England rises at a higher rate than the rest of the country, well this should be left to market forces.

I do however wish to express my thanks to your department for keeping me well informed throughout this whole process.

Yours faithfully,

JOHN BREWER.
