

Tom Kemp
Programme Officer

14-6-2010.

57. Boverse Ave.
Salisbury.
Wilt
SP4 8DQ.

Dear Mr Kemp,

Ref Ref 288

Salisbury Care Strategy. Mrs P. Doriel

Thank you very much for your

letter dated 7-6-2010.

- 1) Thank goodness the new government has had the sense to abolish this abuse.
- 2) As I have already said Salisbury is unique in having 5 rivers, which means that it cannot be treated as other cities, due to flood risk and inability to take more traffic.
- 3) The tourist industry (the only one here) would cease, if roads became gridlocked due to new houses being built.
- 4) When that nothing here will want more industry and people, so let that area be developed.
- 5) The only people wanting change in Salisbury, are those out to profit by it.
- 6) With the shortage of money it would be criminal to waste it on change in the Market Square and Elizabeth Gardens.

7) One hopes that the Council will listen to the residents views, and that common sense will prevail. If there is money available it should go towards the schools and roads. We do not want change for change sake.

Yours faithfully.

Philippe M. Jaurès.
