Dear Sir,

South Wilshire Core Strategy (SWCS) Examination

In response to your letter of 7th June 2010 regarding the effect abolishing Regional Spatial Strategies (RSSs) may have on the SWCS, we wish to comment as follows:

- The SWCS should now also be abolished in its entirety as it is based on what is soon to become out of date policy, ie a cancelled RSS.
- As a result, the current SWCS will not reflect current Government policy on local development. The policy promulgated in it will be flawed and inaccurate.
- An new CS for South Wiltshire should be included in the proposed Wiltshire CS.
- This proposed Wiltshire CS should not be issued for public consultation until such time as the Government's policy on future local development has been promulgated and incorporated in it.
- We realise that this will mean that a lot of time, money and effort will have been wasted on the current SWCS, but this is this sort of thing which occurs when one has a (radical!) change of government.

Yours sincerely,

Maj A Barnes

Mrs T J Barnes

Mr D A Barnes

Miss L J Barnes
