Wiltshire 2026 – Planning for Wiltshire’s future

The Wiltshire 2026 consultation formed an important step towards the development of the ***Wiltshire Core Strategy***.

The strategy will eventually replace elements of the existing local plans which planning decisions are currently set against.

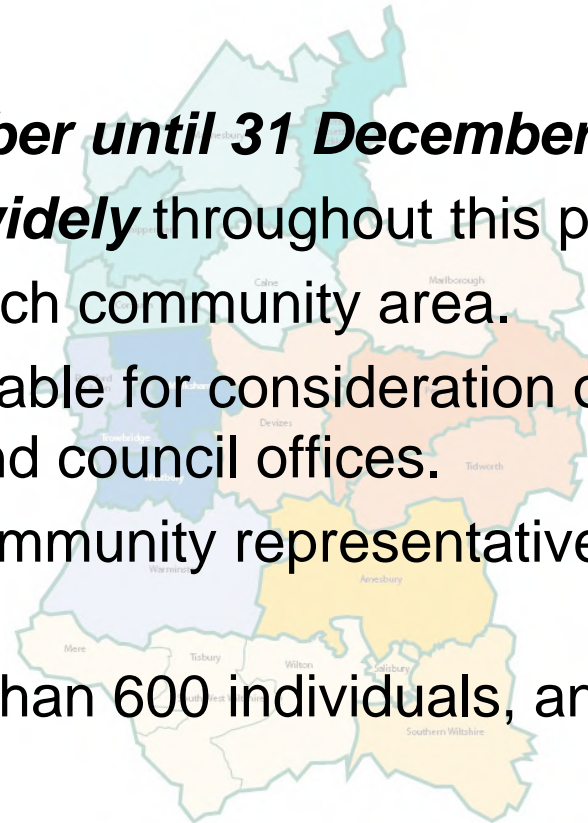

The Wiltshire 2026 consultation, launched during October 2009, outlined;

- a vision for Wiltshire;
- the opportunities and issues within each community area;
- proposals for how that area will change over time, including;
- an outline of the suggested scale and location of housing and employment development where identified.

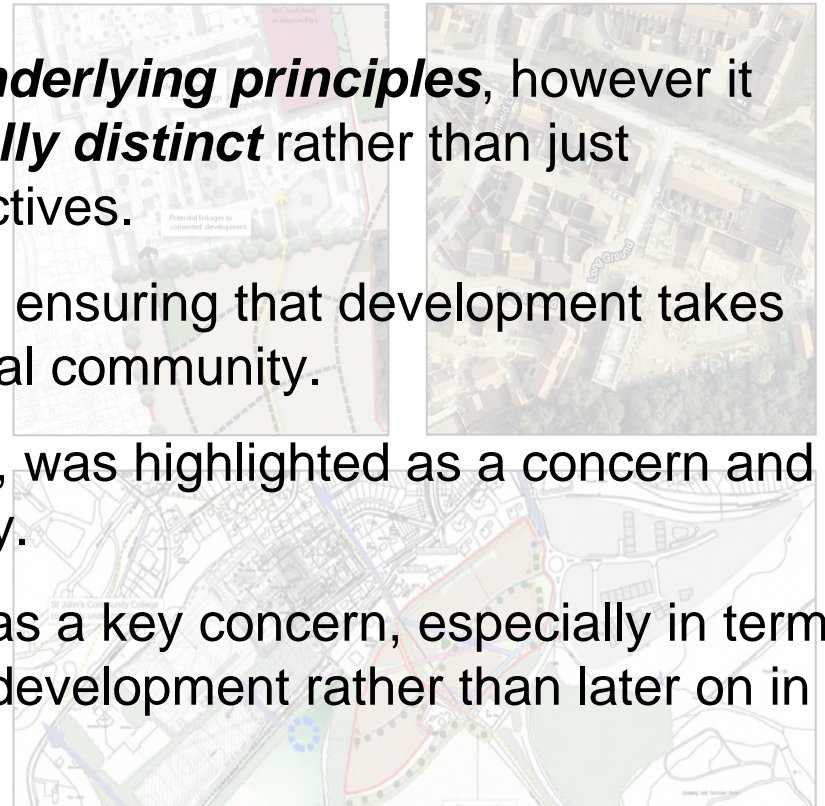

Consultation process

- The consultation ran from **30 October until 31 December 2009**.
- The consultation was **publicised widely** throughout this period.
- **Public exhibitions** were held in each community area.
- The consultation material was available for consideration on the council's website, within libraries and council offices.
- **Workshops** were also held with community representatives and organisations.
- Over **2,000 comments** from more than 600 individuals, and organisations were made.

Overarching opinion

- The vision demonstrated **sound underlying principles**, however it was felt that it should be more **locally distinct** rather than just delivering central government objectives.
- The plan should be **firm and clear**, ensuring that development takes place with the agreement of the local community.
- The **level of growth**, set regionally, was highlighted as a concern and was felt to be unnecessary by many.
- **Infrastructure delivery** was seen as a key concern, especially in terms of its timely delivery at the point of development rather than later on in the plan period.

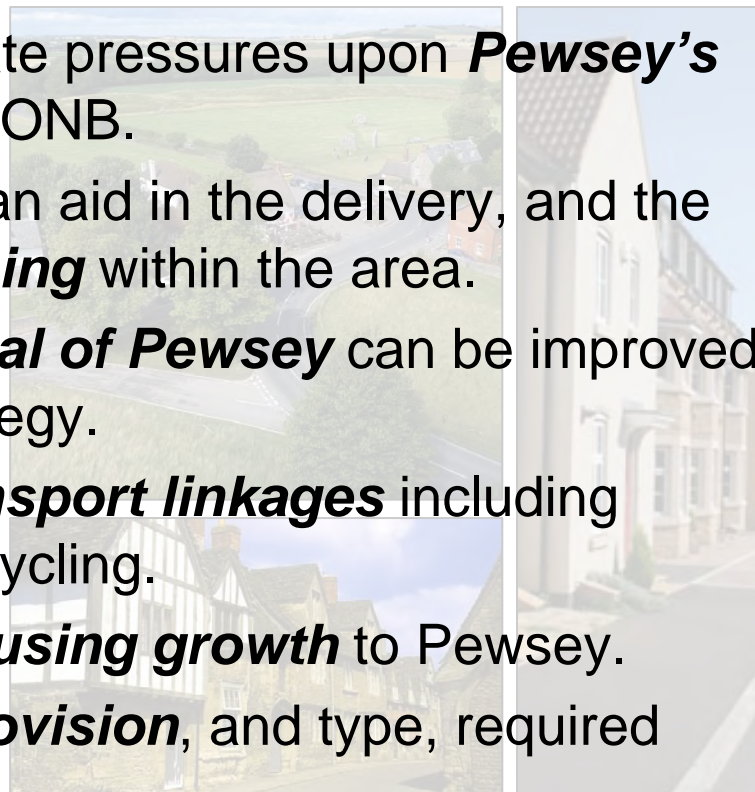

Issues raised in the Pewsey Community Area

The responses showed that the issues and opportunities **generally presented a fair reflection of the character, and challenges facing Pewsey** over the next twenty years including:

- Local shops, businesses and services **require support to remain viable.**
- Pewsey should be recognised for the key role it plays as a **service centre for its rural hinterland.**
- The **tourism potential of the community area** has not been fully explored and recognised. Especially considering its landscape setting.
- No overall consensus can be drawn with regards to the **level of future development** within the community area. However the need for more affordable housing provision was raised.

Proposed actions to respond to issues raised

- Consider how to evaluate and alleviate pressures upon **Pewsey's sensitive landscape** including the AONB.
- Consider how the community area can aid in the delivery, and the **provision of more affordable housing** within the area.
- Investigate how the **tourism potential of Pewsey** can be improved and supported through the core strategy.
- Examine Pewsey's **sustainable transport linkages** including methods to encourage walking and cycling.
- Consider the effect of **delivering housing growth** to Pewsey.
- Explore the level of **employment provision**, and type, required within the community area.

Next steps for the core strategy

- A full report on the consultation outcome will be available by the end of May. The report will be available to view on the councils website and offices.

Now

2011

Production of a **draft core strategy** - further consultation and developing the evidence base.

The draft core strategy will then be **formally submitted** to the secretary of state for consideration – anticipated spring 2011.

The submission will be followed by an **examination in public** for independent scrutiny by a planning inspector.
