The community area strategies for south Wiltshire (Salisbury, Amesbury, Wilton, Southern Wiltshire, Tisbury and Mere) form part of the South Wiltshire Core Strategy proposed submission draft which is further ahead of the Wiltshire Core Strategy and currently at examination. These community area strategies will be subsumed into the Wiltshire Core Strategy.

The levels of new employment land and new homes for south Wiltshire are set out within the South Wiltshire Core Strategy and also included in the total levels for Wiltshire (Core Policy 2 - Delivery strategy) set out in the Wiltshire Core Strategy Consultation Document. Strategic sites where jobs and homes should be delivered and levels of development have already been fully consulted on. Your comments are being taken into consideration through the examination of the draft South Wiltshire Core Strategy.

The Wiltshire Core Strategy Consultation Document includes a set of policies to ensure that development is managed and shaped effectively. These apply to the whole of Wiltshire including south Wiltshire. Policies include those addressing climate change, delivery of affordable housing and sustainable transport. Please see the board on ‘Delivering Strategic Objectives’ for details. Consultation on these policies is necessary as these are either:

- new policies that will relate to the south Wiltshire area
- policies within the draft South Wiltshire Core Strategy, which should relate to the whole of Wiltshire.
