

# The Wiltshire Autism Information Pack

A guide for  
parents and carers who  
look after someone on the  
Autistic Spectrum aged 0-25yrs  
support | services | resources

## WHO IS THIS FOR?

- 1) Parents and carers who live in Wiltshire and have children and young people aged 0-25yrs who have recently been diagnosed with an Autistic Spectrum Condition (including Asperger's Syndrome):
- 2) Families who have lived with Autism for some time may also find this a useful read.
- 3) Professionals who work with the above.

## WHAT IS IT?

Primarily it's a guide containing information on a variety of services, support and resources available locally and how to access these. There's also information on legislation and guidelines, the Wiltshire Autism Strategy and Wiltshire Autism Partnership. It also lists some key national organisations, the Autism Alert card, good books, websites and much more.

## WHY?

Parents and carers said they found it hard to root out information on local services, support and resources applicable to their children and young people's condition and needs. By gathering it all together, the Wiltshire Autism Information Pack aims to make this information more accessible to these families.
