

Breakeven Point

Working out how much you need to charge to breakeven. Divide your weekly costs by how many hours you can charge for in a week, this is your maximum occupancy.

To work out your number of hours per week:

Hours Per Day	X	Number of places	X	Days open in the week	=	Total hours
<input type="text"/>		<input type="text"/>		<input type="text"/>		<input type="text"/>

To work out what you need to charge per hour at maximum occupancy:

Total Weekly costs	/	Total weekly hours	=	Breakeven hourly fees
<input type="text"/>		<input type="text"/>		<input type="text"/>
