

WILTSHIRE

COUNCIL BUSINESS PLAN

2022 to 2032

Wiltshire Council

Foreword

I am pleased to present the Business Plan for 2022 to 2032, following on from the Principles which were agreed in 2021.

This plan represents Wiltshire Council's ten-year ambition for the county. It sets out the council's mission, how we will measure our achievement of it in the immediate future and the key themes that guide our work.

Although it is near impossible to plan in detail for the decade ahead, I am certain that this long-term focus on the challenges that we face as a county is the right approach and I wholly expect updated versions to be published in the coming years as our services deliver upon their commitments.

Wiltshire is a thriving county with a rich and diverse heritage. We are home to half a million people with around half of the population living in towns and villages with fewer than 10,000 residents. This plan recognises that we cannot achieve everything in isolation; we need to work ever more closely with our partners and stakeholders.

Our strong and cohesive communities continue to be some of our proudest achievements. The way we look out for each other and handle the challenges we have faced together is what makes our beautiful county the best place to live, work and raise a family.

As a council, we know our mission is to ensure:

- The people of Wiltshire are **empowered** to live full, healthy and enriched lives.
- Our **communities** continue to be beautiful and exciting places to live.
- Our local economy **thrives** and is supported by a skilled workforce.
- We lead the way in how councils and counties mitigate the **climate** challenges ahead.

We are committed to listening to and speaking for Wiltshire. The council is a modern and democratic organisation that focuses on learning and adapting rapidly, paying continuous attention to our area's changing needs and ensuring we do what is right for the people of Wiltshire. It also continues to prepare for the opportunities and challenges that come with levelling up and devolution.

As a result, we are continually reviewing and refining our services to deliver better outcomes that empower local people. We will do this with a focus on a cost-effective, strategic and long-term approach to service reform.

We know that this is not without its challenges, which is why, in all that we do, we will continue to be inclusive and focus on preventing problems from arising and act quickly when they do.

We are striving to improve social mobility to reduce inequalities in our communities and joining national efforts to tackle this beyond our own geographic boundaries.

My administration will ensure we continue to work with, and for, our local communities to keep Wiltshire the distinctive place it is, creating pride in our county and our strong communities. It will be courageous and assured in its activities, focused on doing what is right for Wiltshire over the long-term and taking the kind of action that may not yet have been seen elsewhere.

Cllr Richard Clewer,
Leader of the Council

Our guiding themes

Prevention and early intervention

We take a long-term view, focusing on what is right for Wiltshire and invest in prevention and early intervention to tackle problems before they get worse. We have a whole life approach to planning and providing services for our residents. This includes our ambition to reach net zero carbon.

Improving social mobility and tackling inequalities

In everything we do, we consider the impact of the action on social mobility and ask how we can help to tackle the disparities in opportunities that exist within Wiltshire.

Understanding communities

We ensure our dialogue with communities is open, transparent and inclusive, in the right place and at the right time so that our services meet our distinctive local need.

Working together

We design and deliver our services in partnership with service users, local communities and other public sector partners where appropriate. We collectively consider how to integrate our work, get maximum value for public sector spend and plan our use of the public sector estate together.

Introduction

This Business Plan marks the start of many exciting new opportunities for Wiltshire. It will help shape the future and allow us to respond to the challenges that arise with dynamism and courage.

The last two years have been some of the toughest faced by residents and public service alike. We recognise that, along with other councils across the country, we faced significant challenges before the COVID-19 pandemic, including challenging resource decisions amidst growing demand for our services.

These challenges remain and we now need to go even further to ensure Wiltshire Council is fit for the future by actively investing in our organisational resilience and the agility of our workforce.

For each of the outcomes in this plan, our services have undertaken thorough delivery planning and we have set out our aims, what we are already doing and what we will implement in the years ahead. The activities set out will be the basis for measuring our success and are accompanied by indicators that tell us how successful we are in delivering the services that you, our residents, need and cherish most.

As Chief Executive, I am keen to instil the principles of working as one council, recognising that our residents do not live their lives in the compartmentalised way that our people and place-based services were typically run. I am confident that the transformation that will be delivered within the council over the next ten years will improve your interactions and experiences with the council.

We cannot do this alone. Working with our local communities, local businesses and our partners in the NHS, fire, police, justice, military, schools, voluntary sector and central government will be critical to success.

We will seek common cause with our partners and neighbouring local authorities to get the right solutions for you and for Wiltshire. We will develop clear plans for partnership working, communicating, influencing and for developing our commercial approach to complement this Business Plan.

Together we will deliver services over and above our statutory obligations for you, the people of Wiltshire, and ensure that your council is the highest performing in the country.

Terence Herbert,
Chief Executive

We get the best start in life

Children having the best start in life is a fundamental part of improving their long-term life chances, and affords them the best opportunity to live long, full, healthy and enriched lives. We aim to:

- Ensure every one of our children achieves their optimal physical, emotional and mental health.

- Guarantee that there are enough high-quality and accessible pre-school places.
- Find the right specialist support for children with special educational needs.
- Provide additional support to meet the needs of children who are looked after by the council, helping them to achieve their educational potential and creating opportunities for aspirational next steps in education, employment or training.

Your council

We are clear about who we are and the organisation we want to be. Our staff understand what is expected of them and what they can expect from us, with the following values set out in an 'Our Identity' document:

- We are public servants, innovating and collaborating with partners and residents to build stronger communities.
- We are an evidence-based, high performing organisation. We reward achievement, recognise effort and are unequivocally focused on making a difference and delivering the best outcomes for our residents.
- We are one council, which is an inclusive and agile environment where we celebrate each other's successes, recognising that our residents do not live their lives in the compartmentalised way that services have historically run

Throughout this Business Plan, we will continue to ensure that all communications are fully accessible and considerate of seldom heard communities, and are supported with appropriate and specialist material as required.

A Communication Strategy will be developed to demonstrate the council's delivery of this. Everything we do will be underpinned by:

Delivering value (financial, performance and risk management)

We set our budget based on the contribution that spending makes to delivering our mission.

We produce Statements of Accounts and carry out an audit process that meets statutory production deadlines and ensures there is no qualification, in addition to updating the Finance Control Environment processes and documentation.

We ensure that all managers are suitably skilled, trained and able to effectively deliver good financial management and performance.

We have a business-like approach with an up-to-date commercial policy, good returns on our assets and clear business cases for everything we do. Our procurement processes consider the wider social value that can be delivered, for

example, carbon reduction, smoking cessation and enabling local and other small and medium-sized enterprises (SMEs) to tender for council contracts.

We enable the effective delivery of savings, working within the governance process that will establish a savings delivery board and the set framework. We will identify and implement a robust process to track and monitor savings as part of the budget monitoring process, working in conjunction with the relevant transformation (and other) boards

We enable sensible risk-taking and regularly report on the progress of delivering the business plan outcomes.

The Business Plan is supported by an annual corporate planning cycle that develops more detailed approaches and resource assessments for delivering each of the outcomes. These will be updated annually and used to inform the budget setting.

Progress, including financial, is monitored using performance measures that are Cabinet-approved and delivered in conjunction with the council's Business Intelligence function.

Cabinet will receive combined finance, performance and risk reports on a quarterly basis.

A skilled, agile and engaged workforce

We ensure staff have the knowledge, skills and confidence to respond flexibly, where decisions are made based on evidence and data and where we strive to be high performing.

Our Identity is embedded across the organisation and we will deliver a new People Strategy that encompasses organisational (service and job) design, behaviour, ways of working, upskilling, agile and flexible deployment and being able to respond to changing demands.

We continue to build our own engaged and skilled workforce while attracting, selecting and recruiting the best staff, ensuring there is good ongoing recognition and engagement of staff, and empowering staff to self-serve wherever possible.

Transformation and Business Change

The council is a healthy and efficient organisation that embraces transformation, is forward looking and driven by evidence-based actions.

Councillors have a clear understanding of the council's performance against Business Plan outcomes and associated risks.

Senior leaders and decision makers can access up-to-date corporate level performance information directly.

We have clear insight into how our services work from the customer's point of view and measure how well they are performing.

We redesign services through a rigorous programme and project-based approach, with regular checkpoints and benefits analysis to ensure they are efficient, productive and streamlined to support the delivery of the Business Plan. Over the course of the plan, this approach to service redesign will also lead to reduced cost.

We create a culture within the council that enables us to absorb, anticipate and adapt to change, creating organisational resilience through a cohesive vision shared by council officers across all services and supported by councillors.

We establish the principles, standards and a framework for all projects across the council, and develop and deliver a balanced and affordable programme portfolio that enables us to meet our mission.

We proactively identify opportunities to advance our strategy and vision through transformation initiatives that will deliver measurable performance, business improvement and culture change, embedding the vision set out in Our identity.

We have clear coordination of all transformation activity, bringing services together, ensuring alignment with the business plan and key principles and preventing duplication of effort. This includes through the delivery of a new Enterprise Resource Planning system (ERP) to further enhance the use of insight and the management of resources.

This rationalises the use of council buildings, improves income generation, improves cross-functional and partnership working, reduces travel and improves employee wellbeing.

Transformational change is not only delivered successfully, but also embedded in the council's capabilities. Operating models are as efficient and effective as possible, being fit-for-purpose in achieving our strategic aims in addition to continuing to grow traded services and increase the council's income.

Quality, timely and well-structured information and technology

We ensure the communities and businesses we serve can engage and transact with us responsively and seamlessly, irrespective of the services they access.

We empower decision makers by providing them with access to accurate, consistent and timely information that supports their understanding and insight to deliver the best outcomes for our residents.

We invest and transform digital infrastructure to underpin all of Wiltshire's operations and services.

We redefine the digitally enabled democracy to provide simple but innovative ways to collaborate between residents, businesses and councillors.

Measuring our performance - key indicators

The annual corporate planning cycle is already underway and detailed planning for each area of the council has been completed. These plans describe how services will work together to contribute to our mission, and the metrics that will be used to monitor progress.
