

GREAT SOMERFORD (INCORPORATING STARTLEY) NEIGHBOURHOOD PLAN

DECISION STATEMENT – ADDENDUM AND APPENDIX 2

1. ADDITIONAL MODIFICATIONS

- 1.1 Pursuant to the Town and Country Planning Act 1990, the Neighbourhood Planning Regulations 2012 (as amended), and all other relevant legislation, Wiltshire Council published the Examiner's Report and the Council's Decision Statement on the proposed Great Somerford (incorporating Startley) Neighbourhood Plan on 25 September 2017. The Council decided to make modifications to the Plan to ensure that it meets legal requirements including the Basic Conditions as set out in legislation. Appendix 1 to the published Decision Statement sets out these modifications, together with the reasons for them.
- 1.2 The Council is making two additional modifications to the proposed Plan to fully implement the examiner's recommendations and to correct minor errors.
- 1.3 Both modifications relate to Modification R25 in the published Decision Statement at Appendix 1. They will result in the following additional changes to new paragraph 7.11:
 - The total number of affordable dwellings in the village will be expressed as 'approximately 42' in line with Modification R1
 - In the detailed breakdown of affordable dwelling provision, reference to sites NP2 and NP3 will be removed as they have been allocated for approximately 7 and 2 dwellings respectively. In line with Modification R2, they fall below the national dwelling threshold triggering affordable housing contributions.
- 1.4 Appendix 1 to the published Decision Statement has been amended to that effect and published on the Council's web site at

http://wiltshire.objective.co.uk/portal/spatial_planning/np/great_somerford_neighbourhood_plan
- 1.5 The additional modifications do not affect the Council's decision set out in the published Decision Statement.

APPENDIX 1

Modifications to the draft Great Somerford (incorporating Startley) Neighbourhood Plan in response to the Examiner's recommendations and to correct errors

Guidance for using this document

The following table sets out the changes that are required in order to address the recommendations (R1-R9) set out in the Examiner's report, together with an explanation/reason for the change.

Throughout the table, specific changes to the Plan are presented. Where possible, the changes are simply described – e.g. 'Delete paragraph X'. For more complex changes, a standard approach has been used to define what needs to be done in terms of modifying the draft Plan. The approach is as follows:

- text in ***italics, bold and underlined*** identifies new text to be added to the Plan.
- text that is shown as ~~strikethrough~~ identifies text to be deleted from the Plan.

The relevant page, paragraph, policy and supporting map numbering relates to the draft Neighbourhood Plan (hereafter referred to as the 'NP'), as submitted to Wiltshire Council.

IMPORTANT:

Table 1 in this Appendix contains the modifications to be made to the Plan in line with the Examiner's recommendations (prefixed by R1-R9 in the table).

The Examiner's recommendations focus upon the wording of policies and, as clarified in para 82 of his report, the supporting text will need to be amended to bring them in line with these. Table 2 therefore contains the additional modifications Wiltshire Council decided to make to other sections of the plan (R10-R44).

The final NP, to be published for the purposes of the referendum, will need to renumber the policies and paragraphs as appropriate following the insertion of changes.

Policy GSNP 8 ³ – Broadfield Farm Site NP8 (Land at Broadfield Farm) is allocated for the development of up to approximately 18 dwellings in accordance with Policy GSNP1. The allocation is limited to the previously developed land. When applying for planning permission, applicants will have to demonstrate compliance with the policies in the adopted development plan. Applicants should pay particular attention to: 1. Utilising, and improving the existing access from Seagry Road 2. Minimising the impact on the conservation area and its setting, in terms of the scale, bulk, siting, design and materials of the new units in order that they respect the local vernacular built form. 3. Establishing a safe pedestrian access to the village core. 4. The relationship to and impact on local biodiversity within and adjacent to the site	Broadfield Farm is included as an allocation for housing development of approximately 18 dwellings because it would provide for sustainable development based on the Examiner’s justification at para 69-75 in his report. NB: Modifications apply to the proposed Policy consulted on in May-June 2017. To ensure consistency with modified Policy GSNP1 and WCS Core Policy 13.

	2.1	R10: The Parish Council's application for neighbourhood area designation was approved by Wiltshire Council on 15 April 2014. The designation is provided in Appendix M. A map of the designated area, which relates to the parish can be found at Appendix C.	As per R44
	2.2	R11: A steering group to produce the Neighbourhood Plan was set up in early 2014. It has met regularly to manage the project and the minutes of all its meetings can be viewed on the parish council's website. http://greatsomerford.info/neighbourhood-plan/ , <u>along with the approved terms of reference.</u>	To shorten this section in the interest of clarity.

	Para. 2.6 and 2.7	R13: To remove references to appendices J, K and L.	The Basic Conditions test has been undertaken by the examiner through his report. The Plan was subject to additional consultation on Strategic Environmental Assessment (SEA) Screening and Habitat Regulations Assessment (HRA) Screening.

			The new screening decisions are published alongside the Decision Statement. See also R44.
	4.4	R14: The 2011 Census shows that the parish has 304 households with a population of 737. The households are predominantly owner-occupied. There are 22 listed buildings of architectural or historical importance, including one Grade 1 building (the church), and a Scheduled Ancient Monument at the Mount. <u>Great Somerford also has a Listed buildings and the extent of the designated Conservation Area. Heritage Assets are displayed at Appendix F3 Annex 4.</u>	To include reference to the Conservation Area. See also R44.
	5.2	R15: Replace reference to Appendix I with a footnote referencing the full document title.	To simplify this paragraph. See also R44.
	6.1	R16: The Settlement Boundary (<u>also referred to as limits of development</u>) for Great Somerford was <u>first</u> established through the North Wiltshire District Local Plan 2011. The principle of the <u>settlement boundary at Great Somerford</u> is that development should take place only within the defined area, though it should be noted that there is general provision in the Wiltshire Core Strategy for development to take place outside the boundary in the case of small affordable housing schemes. A map showing the existing boundary is at Appendix D1 from which it will be seen there have been some properties constructed outside the current boundary.	In the interest of clarity. See also R44.

	6.2	R17: Coincidentally to the Neighbourhood Planning process, Wiltshire Council is carrying out a review of all such boundaries, which are now termed Limits of Development. The Core Strategy confirms at paragraph 4.15 that neighbourhood plans can relax the boundaries at villages and through this neighbourhood plan the boundary has been reviewed and a map of the proposed new boundary is at Appendix D2.	To be clear that this neighbourhood plan has reviewed the boundary. See also R44.
	7.4	R18: In planning for the future of the village this plan strikes an appropriate balance between meeting the clear and demonstrable affordable housing need; the locally specific constraints in terms of the character of the village and its heritage assets; and the expressed wishes of parishioners in terms of what kind of development they prefer. The plan does this by allocating a mix of sites capable of delivering between approximately 2 and 42 approximately 18 homes in keeping with the village. The site selection evidence summarised in Appendix F3 justifies the site selection in the local context and also describes why other sites were rejected. Of particular importance were the effects of development on heritage assets in Great Somerford. The evidence base pays particular attention to this matter and Historic England confirmed that the site selection work undertaken has demonstrated the Plan's conformity with national and local (heritage) planning policy.	To reflect the approximate capacity of site allocations in the plan following modifications. The last three sentences in this paragraph have been overtaken by events including the examination and reporting.
	7.6	R19: Previous para 7.9 becomes new paragraph 7.6 and is modified as follows: At the start of the plan preparation process the total of approximately 35 dwellings was determined by reference to the Wiltshire Core Strategy and the Wiltshire Housing Site Allocations Development Plan Document (February 2015), which requires 151 new homes	To ensure consistency with modified Policy GSNP1 and WCS Core Policy 13.
