

Legend

- Chippenham Study Area
- Main River

Historic Flooding Incident

- ▲ Recorded as Groundwater Flooding Incident
- ▲ Potentially a Groundwater Flooding Incident

Areas Susceptible to Groundwater Flooding

- >= 75%
- >= 50% < 75%
- >= 25% < 50%
- < 25%

NOTES

Notes:

This map forms an approximate guide to areas that may be susceptible to groundwater flooding. However, for all new developments, site investigation is required to confirm local groundwater levels and therefore risk of groundwater flooding.
